PARIS, TUESDAY, JULY 18, 1978

Leaders at the Bonn summit meeting strike a pose at Villa Hammerschmidt after yesterday's morning session. In the front, from left, are Chancellor Helmut Schmidt of West Germany, President Carter, President Walter Scheel of West Germany, Premier Giulio Andreotti of Italy and Premier Takeo Fukuda of Japan; behind are Prime Minister Pierre Elliott Trudeau of Canada, President Valery Giscard d'Estaing, France, and Prime Minister James Callaghan, Britain.

prehensive strategy to revive the ailing world economy was an-nounced tonight by leaders of the

BONN, July 17 (1HT) - A com-

While no participant was willing to predict when the new approach might have tangible impact on unemployment, inflation, sluggish investment and other economic ills. the general tone was that the group
—Canada, West Germany, France, Italy, Japan, Britain and the United States — had shown political unity and determination to work together and agreed on significant trade-offs that were realistic in domestic political terms.

But most of the key accords will need to win congressional or parlia-mentary majorities in the seven democracies. In the fields of growth, inflation, currency, energy and trade, the package included:

• A new U.S. pledge to impose an energy framework this year that will raise domestic oil prices to world levels by 1980 and cut oil im-ports by 2.5 million barrels a day by 1985 from the present level of 12 million barrels a day.

 A pledge by West Germany to propose to its legislative bodies by According to an article in the August measures to increase growth and expand demand by up to I percent of its gross national

 A promise by Japan to expand domestic output and reduce its balance of payments surplus by increasing imports. Japan will review growth by September to see if fu-ture increases are needed.

Cyprus Reports Failure of Plot **Against Rulers**

NICOSIA, July 17 (AP) - President Spyros Kyprianou announced the crushing of an anti-government conspiracy today, simultaneously with the dismissal of Tasos Papadopoulos, the Greek-Cypriot repre-sentative to peace talks with the

Turkish Cypriots.
There was no announcement of a direct link between Mr. Papadopoulos and the conspiracy. But in his letter of dismissal to Mr. Papadopoulos, President Kyprianou accused him of "blinding and sick ambition, of envy and hatred."

"I do not think it is necessary to mention or to explain the real reasons that created this situation as this would serve no useful purpose. . . and because I am certain that you know these reasons much better than anyone," Mr. Kyprianou's letter said.

In a separate statement, it was announced that the conspiracy. both external and internal, had failed. The people are advised to remain calm, as the situation is under absolute control," a presiden-oal spokesman said. He added that the aim of the conspiracy was to force President Kyprianou to

Egypt Crash Kills 59

CAIRO, July 17 (UPI) - A crowded bus struck an automobile and plunged into the Nile River today. Police reported 59 bodies recovered. Britons Are Asked to Help Scientist With Fishy Project

LONDON, July 17 (UPI) - If you're planning to arrive in Britain late this week, hold your nose. It's National Fish Skin Week.
"It's flies we're after, actually," James Dear of the Natural History Museum said. Mr. Dear, 25, is appealing to Britons to litter their gardens and lawns with "fish beads, fish skins, pieces of rotting meat or a piece of fish that doesn't smell too good" and leave them

Mr. Dear, who has spent five years "just dealing with blowflies, on a worldwide basis," wants to learn how the nine species of greenbottle flies and nine of bluebottles native to Britain are distributed around the British Isles.

"They're attracted by carrion, so it seemed a good idea to have people throughout the country put smelly fish or rotting meat in their gardens to lure the blowflies," be said. "When the flies gather, people should net them — a butterfly net or just a piece of gauze will do - pop the flies in a bottle and let them die. Once the flies dry out they can be put between sheets of tissue paper, put in a tin [can] - an empty tobacco tin or somesuch - and sent to me."

Mr. Dear will plot the distribution of his fly samples, gaining information that he said would be "useful when it comes to answering public health questions and in medical-legal problems." He cited a murder case in Norway, where scientists proved by blowlies on the body that the victim had come from a specific locality, the only one where the particular species of fly lived. It helped solve the

Sour Feelings

The formation of the commission by President Carter has produced some sour feelings at the Labor Department's Bureau of Labor statistics. At the hureau, it is be-lieved that oo overhaul is necessary and that many of the changes en-visaged by Mr. Levitan are unnecessary, impractical or impossible. Statistics, Mr. Levitan said, may

be adequate for measuring the magnitude of unemployment at the national level, but they "come close to being straight random numbers" when it comes to reporting the situanoo at the local level, at which the federal pie is divided. "If ucemployment happens to be

9 percent in a particular city in-stead of the 7 percent listed," be said, "the city could lose millions of

The national sample for the population survey is 56,000. But, he said, when measuring unemployment of hlack workers in a given city, it may be only two or three households, far too small to be meaningful.

Approach Questioned

Referring to the commissioner of labor statistics, Mr. Levitan asked: "Nobody questions that Julius Shiskin is honest, but are the oumbers hooest and are we measuring

the right things?"

He questioned whether "16- and 17-year-olds who go to school full time and look for a babysitting job or lawn-mowing job one or two hours a week" should be couoted as part of the labor force, as they are

Members of the military are oot counted as part of the labor force. That was proper, Mr. Levitan said, when conscription was in effect. But with volunteer armed forces, he suggested, military jobs should be treated like other jobs for statistical

He believes that unemployment statistics are oot an adequate gauge for public policy-makers. He points to the case of a woman who earns \$18,000 a year and whose bushand

Hardship Index Suggested "Should we spend additional federal funds to create a job for

such a person?" be asked, asserting that this family was oot to a hardship situation despite the unem-ployed husband.

The other side of this coin, be said, is that there are about 900,000 heads of families working full time with an income below the official poverty line.

"What we oeed is an index that ment data," Mr. Levitan declared.

Changes have to be made in the statistics, he said, and they have to be made by an outside commission to avoid potential charges of political manipulation.

Mr. Shiskin has been ill for several weeks and unavailable for commeot. But Robert Stein, assistployment analysis, conceded that a evident at this conclave. periodic review of the bureau's proprobably a good idea.

need to make any changes in our general approach." Mr. Stein said, adding that many of the changes contemplated by the commission would add to the complexity of the statistical series and interfere with their continuity, without adding much in the way of usable informa-

"As for a hardship index, I am very skeptical," be said. "I really doo't think it can be done." One reason, be said, is that people are wary about responding to survey

emporium in Myrtle Beach, S.C., how he is able to open a bottle of beer with his eye socket.

'Is Our Time Past?' Tom Hayden Asks

Tax Revolt Casts Chill on '60s Activists

By David S. Broder

ST. PAUL, Minn., July 17 (WP)

— The "children of the 1960s" came together here during the weekend to discuss their future in the chilly, grown-up politics of Proposition 13. Like children of other times, they found themselves uncertain and adrift in a world they

The National Conference oo Al-ternative State and Local Policies - led and organized by some of the prominent young radical politi-cal activists of the 1960s — met-here for three days under the shad-

ow of the property-tax revolt.

Now scattered in government offices, community organizations and public-interest groups from Washington to Alaska, the 650 veterans of the peace and civil-rights movements and the radical politics of the 1960s saw their fourth annureunioo marred by the anxieties they all feel about what they perceive as the sudden lurch rightward of the people they have spent

their lives trying to organize.
"Is our time past?" asked Tom Hayden, the organizer of Students for a Democratic Society and a Chicago Seven defendant. He and others said it was not possible that they were relics while still in their 30s. But the tales they told were of the John Birch Society taking over a black community organization in Atlanta and blue-collar majorities voting against the rights of bomo-sexuals and other minorities.

Protest Appropriated

As self-proclaimed "populists," they worried that their enemies on measures not just unemployment the right have mobilized the masses but hardship — an iodex that pro-vides both earnings and employ-somehow felt should have belonged to them.

Invitation to U.S. for Ian Smith Hands State Dept. a Hot Potato

WASHINGTON, July 17 (NYT) - The pastor of a cburch in a Chicago suburb has handed the Carter administration a delicate problem by inviting the Prime Minister Ian Smith of Rhodesia to participate io a religious conference July 29.

The Rev. Paul Lindstrom of the Church of Christian Liberty in

Prospect Heights, III., said Saturday that Mr. Smith and the three black leaders who participate with him on Rhodesia's Executive Council had all accepted the bids to attend the conference. He said that word of the acceptance had been telephoned to him from

The question of a visa for Mr. Smith, still in actuality the head of a white-minority government declared illegal by the United Nations and against which the United States still maintains economic sanctions, is bound to cause the administration embarrassment, State Department officials said privately Saturday.

Bisbop Abel Muzorewa, ooe of the three black leaders on the Executive Couocil, visited Washingtoo last March to try to obtain administratioo support for Rhodesia's internal settlement. His opponents, Joshua Nkomo and Robert Mugabe, who direct the two guerrilla factions in Rhodesia, have also visited the United States this year.

But the graning of a visa to Mr. Smith will inevitably cause the administration problems with the leaders of black governments of countries situated on or ocar Rhodesdia's borders, which have supported the U.S.-British view that an enduring Rhodesian settlement would require the participation of Mr. Nkomo and Mr. Mugabe.

a kind of bind." He called the outcome of the vote "the death of the Excessive Drugs Blamed For N.Y. Hospital Deaths

Berlin: Still A Problem

tures into Berlin have revived memories of President Kennedy's assertion that he was a Berliner. And since the atmosphere in Mr. Kennedy's day included the Bay of Pigs and a missile crisis, the memories were not exactly cheerful. But the continuing problem of divided Berlin - the Jerusalem of Central Europe in terms of controversy, although not those of inspiration - has been summoned up again.

Mr. Carter did not do it alone. The East German government, which has always hankered after West Berlin and resisted any attempt to include that portion of the city into the Federal Republic complained about the West German officials who accompanied Mr. Carter and emphasized their complaint by giving special inspections to traffic on the roads leading from the West into Berlin - a process which caused long delays and evoked

angry protests. This was rather more than a merely verbal evocation of the past. It constituted a sharpreminder of the way in which the Soviet Union began the Berlin blockade, by requiring permits for goods and passengers entering the city. That was 30 years ago - but the big airlift that eventually broke the blockade bas not been forgotten. Indeed, the Berlin Wall, although only half as old as the blockade, crawls through Berlin in a grim, dramatic and permanent analogue to the earlier noose thrown about the western part of the city. To

In the broad sense. President Carter's ven- be sure, as Mr. Carter pointed out, the Wall was intended to keep East Berliners in, rather than Westerners out, but the analogy per-

> The problem of Berlin is real enough. It began when the Allies against Hitler set up their occupation areas in conquered Germany. The Elbe was the chief dividing line between the Soviet Union and the Western armies, but since this would have given the Kremlin all of the German capital, Berlin was also divided. East Berlin is a part of East Germany: West Berlin has a special status as a kind of city-state. Yet its ties with West Germany are real and close.

Efforts have been made (notably in 1971) to ease the frictions resulting from this state of affairs, to ease movement between East and West, to permit broken families to come together, And some success was achieved.

But whenever tension is created between East and West, whether over incidents within the divided city or broad arguments, as at present, over buman rights, Berlin is usually the first place in Europe where the danger becomes evident. The divided city may not necessarily be the cause of the trouble - although that is always a possibility when two such diverse state systems confront one another so intimately. What is very sure, bowever, is that when trouble develops, it is reflected in Berlin. The Wall and all it signifies

Movement in Middle East

pared for their foreign ministers meeting this week in a castle outside London. a brief wrap-up of the latest reports from the Middle East peace front is in order:

The government of Prime Minister Menachem Begin is bringing to the meeting a 26point peace plan that the Egyptians find unacceptable, Egypt's President Anwar Sadat will be sending his own six-point plan, which the Israelis have totally rejected. Yet another peace plan, drawn up by - who else? — Austrian Chancellor Bruno Kreisky and Willy Brandt, the leader of West Germany's Social Democratic Party, was put forth in Vienna last week for presentation to a forthcoming meeting of the Socialist International in Paris.

It was immediately embraced by Mr. Sadat, denounced by Israeli Foreign Minister Moshe Dayan and warmly welcomed by former Israeli foreign minister Abba Eban.

Also in Austria, Mr. Sadat met last week with Shimon Peres, of the Israeli Labor Party opposition and with Ezer Weizman, who is Mr. Begin's sometimes dissident defense minister. According to a Reuter's dispatch. he was not cheered by either meeting. Just before leaving home, he complained that "it's only us who are making concessions — the Israelis never make concessions.'

But hours later, the Associated Press quoted Mr. Sadat on his return to Alexandria as saying that his Austrian visit had been "more than a success from my point of view, and let us hope that in the near future there will be concrete results." Egypt's Vice President Hosny Mubarak, on hand to welcome his president, ventured the view that "there is a little bit of flexibility in the Israeli side."

Meanwhile, in Jerusalem, Mr. Begin was being quoted as saving that Israel had brought nothing new to Austria and Israeli officials were apparently insisting that Mr. Dayan would bring nothing new to London. And yet the same dispatch said Israeli officials (also unidentified) were so optimistic that they were predicting a "continuing dialogue" between Israel and Egypt even if this week's London meeting produces no

The confusion and contradictions here strike us as a healthy and promising sign. They are almost certain evidence that some

As the United States. Israel and Egypt pre- kind of backstairs bargaining is going forward and that some progress is actually being made. The forthcoming conference of U.S., Israeli and Egyptian foreign ministers, for example, will probably try to separate out the promising areas for agreement and identify the obvious areas of disagreement in the respective Egyptian and Israeli proposals. rather than get down to hard bargaining. But in terms of general principles and means of procedures - as distinct from the sort of material progress or "breakthroughs" that onlookers will be straining to find, or to find missing — the meeting will probably move the process along to some future agreed-upon follow-up conference in a less conspicuous locale, such as the isolated Sinai desert town of El Arish, which was actually Mr. Sadat's

> And then what? Another Weizman-Sadat encounter is already scheduled in Alexandria. After that, there is likely to be more of the same, including more confusion and contradictions, more use of quiet back channels. but nothing anytime soon as electrifying as the Jerusalem drama that initiated the latest phase of Mideast peacemaking. And that, in our view, is all to the good. For the trouble with Jerusalem, and the reason that it so quickly foundered into impasse and bitter recriminations, was that it attempted to lodge at the highest level a process that was always going to have to be worked out, not in a love seat in front of U.S. television cameras but in hard, discreet bargaining on all the tough questions having to do with defensible boundaries, and the precise evolution of the West Bank in slow stages toward some form of autonomy that does not endanger the security interests or foreclose the aspirations of all the parties involved.

That, it seems to us, is what is happening now. And if it lacks the clarity and simplicity of last November's promises of "no more war" and "real peace" from Mr. Sadat. and the large-minded answering pledge from Mr. Begin that "everything is negotiable," it at least expresses in its own garbled way the essential spirit of Jerusalem: a mutual interest in movement, bowever halting and fumbling — a desire on both sides to do something to deal with the impasse and the stagnation that are the real threats to stability in tbe Middle East.

THE WASHINGTON POST.

International Opinion

Young: Gadfly or Albatross?

Is Ambassador Young a gadfly or an albatross? Last week he dropped a whole hod of bricks and at least one of them could have done serious damage. His remark, eagerly taken up by Izvestia, that there are hundreds or perhaps thousands of political prisoners in American jails, was grossly exaggerated, grotesquely misleading and spectacularly illtirned. Amnesty International counts 14 American political prisoners; the implication that their fate can be equated with that of their Russian counterparts is absurd; and fir-

ing off the remark in the middle of the Shcharansky, Ginsburg and Pyatkus trials can only have increased their jeopardy. Silliness at such people's expense is the worst form of self-indulgence.

The consistent charge against Young is this bazardous impetuosity. Over southern Africa it bas led him to support the more trigger-happy of the African nationalists. Yet last week's apparently satisfactory conclusion of the Namibia peace plan must owe something to the Africans' perception of Young as a man on their side.

MEXICO CITY - Gen. Alvaro Ortegon, President-elect of Mexico, was assassinated here this afternoon in a small restaurant where he was attending a political luncheon. The suspected killer was apprehended by friends of the general as he was running out of the restaurant, after having allegedly shot Ortegon five times in the chest. The general had survived a dozen previous assassination attempts perpetrated by radical opponents to his strong law-and-order policies.

There is something reckless and wrongheaded about the idea, but there is something disarming, too.
In the 1960s when many people (including me) were more hopeful about Soviet-U.S. prospects it was in vogue to dismiss captive nations in the state Department, the impetus for taming the cold-war element of captive nations is attributed to Brzezinski. The capas an exercise in irredentism and tive-nations people barely got a ethnic politics. That tendency does proclamation out of Carter last not have the same force now.

Ethnicity

The main reason, I think, is nising awareness of ethnicity. The phenomenon has complex roots and expressions. In its international aspect, it has helped legitimize demands for nationhood on the part of ethnic groups previously held down. It is, after all, quite arhitrary that 30 or 40 tiny ethnic ommunities of a couple of million or fewer souls should become states while 48 million Ukrainians remain subordinate. If the world can demand nationhood for the 22d or 23d Arab group to claim it, whichever the Palestinians are, how can others be denied?

A second reason why the captivenations concept is not so readily dismissed is the human-rights movement. It has lent respectability to an array of political causes of the right as well as the left, as long as they can somehow claim to assert an individual's or group's

From the "captive nations" point of view, the Carter administration held high initial promise. It empha-sized human rights and generally

Diplomacy, Not Bluster

dampen the home economy and

'Mature'

By Anthony Lewis

BOSTON — One of the most re-markable feats of U.S. diplomacy in our time. That was what one veteran diplomat said of last week's agreement on a plan to bring the territory of South-West Africa to independence as Namibia. The compliment was not exag-

Namibia is a faraway place of which most Americans know little. new one issued last week, there is But the agreement there, if it sticks, has large implications. It could ease the dangerous tensions in Angola and Zaire. It could reduce Soviet and Cuban influence in the area. It could offer mild hope of encouraging peaceful change on the racial issue in southern Africa agenerally. Perhaps most imporant is what the Namibia story says about the

uses of diplomacy. Americans are often impatient, even contemputous of diplomacy. On Africa especially, these days, a lot of policians seem to prefer bluster and threat. The situation in Namibia remains Diplomatically, the "captive so complex, and the parties so nations" idea is deeply flawed. To touchy, that one has to be wary even now of expecting final suc-cess. But at this point the diplomatic process has worked.

Racist Doctrines

The odds against a settlement in Namibia were very long. South Africa has ruled the territory since But to hold out the promise of 1920, applying there its own racist nationhood to constituent parts of doctrines. Numerous United Nathe Soviet Union and to invite East thous resolutions have failed to Europe to break completely free of dislodge it. The local guerrilla lead-Soviet control is to tempt foolish er. al I rish mistrust of wealth and priv-

ilege, born of centuries of poverty,

has been carried over to a lack of

interest in historic properties that originally served both a little suspect. More hard, factual research,

rigid figure, wary of negotiations. And the South African Prime Minister. John Vorster, has said he would never deal with Nujoma. Last year five Western countries

- the United States, West Germany, France, Britain and Canada decided to make one last effort to deal diplomatically with that intractable situation. Under United Nations aegis, they set up a contact group to talk to both sides. The five worked closely together. But the idea was American, and the leader of the group was Donald F. McHenry, deputy U.S. representa-tive to the United Nations,

The contact group made repeated visits to South Africa, to Namibia and to the nearby black states: Angola, Zambia, Botswana, Tanzania and Mozambique. It was a year full of delays and frustrations. But in the end both sides accepted the group's plan for a cease-fire a gradual reduction of South African forces in Namibia and a U.N.-supervised election leading to inde-How did it work? A number of

factors came together in the last

few months, among them these:

The president of Angola.
Agostinho Neto, wanted urgently to reduce his regime's dependence on Cuban troops and Soviet mili-lary aid. One way to do that was to improve relations with the West, calm Angola's border with Zaire and end the guerrilla war across its border with South-West Africa.

 The other nearby African countries had their own reasons, economic and political, for wanting a Namibian settlement. Zambia, for example, feared South African troops crossing its border if guerrilla war continued. President Julius Nyerere of Tanzania was especially strong in persuading Nujoma.

South Africa took a crucial

poliucal decision last April by ac-cepting the Western plan for Nami-bia. By this unexpected move South

Tax and Votes

BETTE O'CONNOR.

The article "U.S. Tax Bill Shaped for Votes" (IHT, July 6) is a real spine-chiller. It is appalling when one reads of an open conspiracy between the executive branch and Capitol Hill Democrats to enact a law "whose chief virtue, all hands concede, would be its ability to attract Democratic votes" and thus to perpetuate themselves in office.

There is no pretense about doing something good for the country or for its citizens; simply a law to get votes and sway elections.

This is a cynicism worthy of n Third World Marxist country. It is hardly worthy of a nation aspiring to be the leader of the free world.

Reasons Not Clear

Mozambique Begins to Build Up Army

By David Lamb

CHIMOIO, Mozambique, July 17 - Long vulnerable to Rhodesian attacks ogainst guerrilla strong-holds bere. Mozambique has mounted a campaign to bolster its border defenses and build its ragtag army into a respectable fighting

The draft has been introduced, making all men and women be-tween the ages of 18 and 40 liable for two years' military service. Defense spending has increased to \$113 million — 29 percent of the budget — and the army has grown over the last year to a force of near-

Soviet arms, including SAM-7 missiles and an estimated 100 tanks, have poured into Marxist Mozamhique since late last year. The Cuban military and civilian presence here has jumped from fewer than 100 to as many as 650, and there are a handful of Soviet advisers. Western sources said.

The buildup, however, has failed to alter one military fact of life for Mozambique: Rhodesia retains the capability to strike at will across the border, and Mozambique can make little response, sbort of call-ing for international assistance.

"Rhodesia could come in tomorrow and if it wanted to - which I'm sure it doesn't - march all the way to Maputo," one military ex pert said, referring to the capital. "There's not a thing Mozambique could do. Even at the top levels of government, no one here pretends the situation is otherwise.

Guerrillas Are Target

The Rhodesian attacks are not directed against the government of President Samora Machel but at the guerrilla forces of Robert Mugabe, whom Mr. Machel supports in the war for majority rule in Rhodesia. Mr. Machel's commitment to the guerrillas' cause is

Mr. Mugabe, co-leader of the Patriotic Front, is waging war in Rho-desia from his Mozambique sanctuary. The other black Rhodesian leader in exile, Joshua Nkomo, controls a guerrilla army based in

Mr. Mugabe's army, not noted for its discipline or fighting effectiveness, totals about 20,000 men. About 6,000 operate inside Rhodesia. It is armed by, among others, the liberation committee of the Organization of African Unity.

There is no evidence that Mr. Machel intends to order the Mozambique Army into Rhodesia in support of the Patriotic Front, and it is not entirely clear why he is bolstering his furces. Obviously, how-ever, he would like to have the military capability to protect his own borders, and it is speculated that he realizes that a well-trained and busy army presents less of a threat

to his own regime. 2,000 Killed

Last year, according to govern-ment officials in Maputo. Rhodesian attacks inside Mozambique claimed nearly 2,000 lives. The biggest raid came last November against what Rhodesia said was a major guerrilla camp just outside Chimoio, 50 miles from the border. Mozambique claims that the camp was populated entirely by refugee

Coalition Rulers Quit In Key Indian State

NEW DELHI, July 17 (AP) -The chief minister of the important state of Mnharasbura, formerly Bombay, submitted the resignation of his coalition government today, ending cooperation between the Congress Party and former Prime Minister Indira Gandhi's breakaway wing.

The resignation of Vasantrao Patil, a Congress Party member, followed public accusations that Mrs. Gandhi's group was encouraging defections from the Congress to

there was little that Mr. Machel could do but wait for the Rhode-sians to withdraw. The situation is not greatly improved today, al-though Mozambique has moved some antiaircraft artillery onto the border, sources said.

A UN report estimates that Rhodesian attacks across the border bave caused more than \$100million damage. One attack knocked out the relay attaion that linked Maputo by telephone to the northern areas of Mozambique.

Actually Machel has been remarkably tolerant of the attacks," one Western diplomat said. "His options are limited, but one he certainly bad - and never fully used - was to call for substantial inter-

other major Rhodesian strike into Mozambique would be highly embarrassing, and perbaps intolerable, to the black leaders oo Salisbury's already shaky Executive Council, and possibly wreck the in-

To its south, Mozambique borders oo South Africa, the strongest military and economic power on the continent and an avowed ideological enemy. Because of Mozamoique's ecocomic interdependence with South Africa, bowever, Mr. Machel's government has put off any ideological reckoning in that direction, and Mozambique's military attention focuses almost exclusively on Rhodesia.

Mozambique has been involved in the Rhodesian conflict from the day it closed its border with Rhode-sia in March, 1976. Whatever happens in Rhodesia, however, Mozambique's problems with South Africa lie ahead.

Mr. Machel supports the African That could still happen if the border situation deteriorates. Observers point out, however, that another major Rhodesian strike problem will not be solved quickly or easily. In all likelihood, that means that the clouds of war will continue to hang over Mozambique for some years to come.

familiar moment. Mr. Glasser, 36, that generally are associated with is member of "Harry's angels," a poverty and primitive living, group of South African medical Dozens of Swazis every year owe

tors here from Johannesburg.

The flying doctors are only part of the little-publicized aid that South Africa gives to black states in central and southern Africa, including many that are strongly critical the South African government. Much of the aid is government-backed, such as the food and medical supplies that are regularly flown Zaire. But in the case of the doctors, it is an entirely private affair.

The service originated 10 years ago, when its founder, a Johannesburg radiologist, Dr. Genrge Cohen, was on a private visit to Swaziland. Shocked by the lack of providing medical care he arranged apecialist medical care, he arranged with Swazi authorities to recruit volunteers from Johannesburg's medical community who would travel the 250 miles to Mbabane by road on weekends.

After a year, the driving began to exhaust the volunteers, who were also running into problems with the lack of equipment in the government hospitals at Mbabane and Hlatikulu, 80 miles away. Dr. Cohen approached Mr. Oppenheimer, a liberal on racial issues, who lent his company's aircraft and financed the purchase of essential equipment for the Swazi hospitals.

More than 250 specialists have

participated in the project. They have logged more than 5,500 operations and treated about 40,000 nonsurgical cases. The service has cost the patients nothing, other than the 35-cent admission fee paid by all Swazis at government hospitals and the 30 cents a day inpatients pay for ward care. In return for their services, the Swazi government pays the South Africans for their bed and breakfast at a botel outside

If there is any inducement for the doctors, beyond altruistic con-siderations, it lies in the resort complex of which the hotel is part. The complex, centering on a casino, draws thousands every weekend from South Africa, where gambling is illegal. There is also the attraction of a multiracial society where whites and blacks mix in a way that

was given to show 20 paintings from American museums to a broad spectrum of the Franco-American community here. Acquired through the Art in Embassies program, paintings and their display was a pet project of Donna Hartman. She spent the summer before her arrival in France comb-ing U.S. museums for the works she preferred. The objects, including a Calder stabile and several pop art canvases, were shown in May at a reception resembling an gallery

Most of the Hartmans' large receptions have an open-bouse feeling, with guests taking over the common rooms of the opulent resi-

dence.
"I'm not elitest" says Donna.
Hartman. 50, a tall statuesque woman with short gray hair and a warm, if guarded, smile. "You can't. throw a party like a duchess if Donna Van Dyke Ford was born

in New Jersey and attended Wheaton College in Massachusetts. In her junior year, a friend fixed her up with a Harvard student because they looked alike. The next year, Donna Ford dropped out of Whea-ton to marry Arthur Hartman. Af-ter sailing to Europe alloard the Queen Mary, the couple settled in Paris. Mrs. Hartman rode her bike to the Sorbonne every day where

she studied French.
The Hartman life style today 30 years and five children later - is still as folksy but the pace is faster. tn Paris, the Hartmans rise at 8, have breakfast together in the situng room next to their bedroom. A typical evening would include sev eral receptions and a dinner out or in a restaurant. The ambassador and his wife rarely dine at home in ieie-a-iete. Io their year here, they have visited virtually every part of France.

Drives Own Car

They do not like the protocol and haughty manner usually associ-ated with ambassadors. Mr. Hartman drives his own car with private license plates. Mrs. Hartman goes swimming regularly in a club near the residence, has taken responsibility for the residence greenhouse and lawn and has moved the embassy wives dance class into the residence. She answers her secre tary's phone when things get hectic. The residence - with two of the Hartman children . a parroi named Cy ond a beagle named Abigail has a lively, lived-in atmosphere. Although the Hartmans enjoy their success. Mrs. Hartman says

U.S. Ambassador's Paris Popularity Is Ballooning she takes the entertaining seriously. "We're doing what we believe in, she said in a pale blue and cream salon recently, overlooking the lush green garden in back. "We're trying hard to reach the people in this country. We want to acquaint our-selves with the power combs. to know where the country is so we can make predictions. You only pass this way once and you might as well do a good job. Entertaining is not glamorous. But it's the nuts and bolts of this life."

Mr. Hartman says the nuts and bolts of his job is explaining U.S. policies to the French and "eliminating misunderstanding." "That's where the travel part comes in." he said in a short interview last week. "We believe in making contacts with a whole series of groups, artis-tic and academic too."

fronically, the Hartmans' entertaining has stirred the only controversy. While the French appear to like the new informality, there have been complaints within the American Embassy that the Harimans have absorbed the entire entertainment budget, including funds nor-mally reserved for lower-level diplomais and regional consulates. Until recently, the U.S. Embassy

and consulntes in France had an annual entertainment budget of went to the ambassador. In recent years, some ambassadors were independently wealthy. Apparently, Mr. Erwin and Mr. Walson did not use up their portions of the budget. Last year, the entertainment budget for France rose to \$80,000. But the Hartmans, who are not in-dependently wealthy, have report-edly not only absorbed the ambas-

into funds normally slated for other diplomats. An embassy officer responsible An embassy officer responsible for administering funds denied this report. And while Mr. Hartman acknowleged there have been some "problems," he insisted the problems are being solved and that American diplomats' "out-of-pock-to-transport will be reimbursed as et" expenses will be reimbursed as

always.

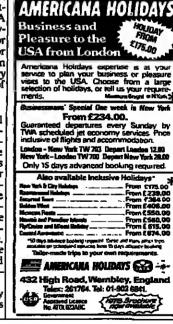

sadorial allotment but have eaten

The balance sheet after one year in France is positive, Mr. Hartman, apparently President Carter's fifth choice for ambassador to Paris. seems to have installed a new era of U.S. diplomacy in France and imagination in American entertaining. His reputation has extended to the provinces. A butcher in Normandy recently exclaimed to a U.S. tra-veler, "For once you Americans have a real ambassador, I heard him on the radio. He speaks

U.S. Concern to Buy Stake Sold by Merrill

By Carl Gewirtz

PARIS, July 17 (1HT) — First Boston, one of the leading U.S. securiues houses, is negotiating to buy a one-third interest in Credit Susse White Weld the London-based merchant bank, which ranks among the top five managers in the Eurobond market. The talks were disclosed today by CSWW in London and Credit Suisse in Zurich.

First Boston's purchase would restore CSWW's direct link with the U.S. capital market that was lost when White Weld was taken over by Merrill Lynch. Pierce. Fenner & Smith earlier this year.
At that time. Credit Suisse exercised an option to buy the former White Weld stake rather than allow Merrill Lynch into the London op-

roughly the same price it paid, an estimated \$26 million, it was learned. The holding would be in the Swiss holding company SA Financiere du Credit Suisse et de White Weld. CSWW's parent com-pany. Clariden Bank and Valeurs White Weld of Switzerland and rently prohibit the sale of Swissfranc assets to foreigners.

In turn, SA Financiere would huy into First Boston Inc., establishing the cross-holding structure that existed with White Weld. In this case, First Boston would pay for the acquisition by issuing new shares in be purchased by SA parent company, capitalized at \$85

Capital Gains Tax Cut Favored

By Clyde H. Farnsworth

WASHINGTON, July 17 (NYT) - Although a cut in the capital gains tax is seen chiefly as helping the well-off minority, and even af-ter the threat of a presidential veto. there is apparently no stopping the momentum in Congress for a substanuial reduction.

Sixty-one Senators and a majori-ty of the House Ways and Means Committee favor slashing the present capital gains tax, according in

Congressional pulsetakers.
The Ways and Means Committee's chairman. Al Ullman. D-Ore.. has kept the issue from coming in a vote for the last 2½ months, blocking action for broader tax reduction for individuals and corporations, to try to give the Carter administration a chance in avoid what could be a humiliating defeat.

But time is up, and now Mr. Ullman is pushing the tax-writing committee into action again, com-

Merrill Lynch into the London operation — raising its stake in CSWW to 76 percent. Under the proposed deal, the Swiss bank would sell to First Boston the 31 percent share of CSWW formerly held by White Weld at Tourselly the arms arise it said an **Poorest Nations**

politics.

Seymour Martin Lipset, an econ-

omisi at Stanford University, ana-

lyzes it as part of the post-Vietnam, post-Watergate distrust of Govern-

ment. "When you have the unpopular leader of an unpopular institu-tion attacking the fat cats, it be-comes a case of the pot calling the kettle black," Professor Lipset

Jay Schmiedeskamp of the Gal-

business lobby has successfully

cashed in on the public resemments

against high taxes, inflation and the

fact that the country isn't moving forward as it should." he observes.

Attitudes Shifting

Reducing capital gains taxes is promoted as an aid to business

through encouragement of greater

capital formation and investment. To Mr. Schmiedskamp the public

now is identifying an improved business climate with its own well-being in terms of more jobs, re-duced inflation and lower taxes.

If public attitudes toward busi-ness are indeed shifting, as Mr. Schmiedeskamp and other opinion

specialists attest, much of the credit

goes to the powerful business lob-

by, which gets out the floods of let-

ters and telegrams that influence

Rudy Oswald, an AFL-C1O

economist, questioning the poll-sters' contention of a general sof-tening toward business by the pub-

lic, says Congress is reacting only

Through their parents, many

captives have potential capital sur-passing that of most commercial

insurers. Exxon's captive, Ancon Insurance, had a 1977 net income

of \$54 million and is valued at \$237

Sidney Pine, an attorney for more than half the captives in Ber-

muda, says that simply by eliminat-

ing brokers' fees, commissions,

marketing and advertising costs

and administrative overhead, cap-tives cut the costs of premiums, "by about 35 percent." And as Richard Shagrin, an official of Chase Man-

hattan Bank's insurance depart-

ment points out, the captives belp a company's cash flow. The premi-

ums paid to the captives amount to

"taking money out of the right pocket and putting it in the left,"

The corporation is free, then, to

reinvest its premiums international-

ly and reap further gains. By expanding their captives' activities,

pareol companies may increase

profits, dilute the impact of major

risks and diversify their holdings.

'Captives' Move Into Insurance Markets

By Lisa Bergson

NEW YORK, July 17 (NYT) The insurance industry calls them captives — companies set up by major U.S. corporations in insure their own special risks. Basking in tax-free Bermuda, they seem an unlikely group in cause a stir in the international insurance market.

But in the last year, they have be-gun to do some capturing of their own — selling insurance to outside companies and entering the sophisticated field of reinsurance, seeking Lloyd's of London-style high-risk business.

Bermuda, of course, has seen

plenty of insurance action for several years. With its tax advantages, major corporations have found it a convenient place to establish the captives, which are usually run by independent insurance manage-ment firms. In just four years the captive insurer population on the island has swelled to more than 700 from 333, writing some \$2.5 billion in premiums — spurred over the past year by a ruling by the Internal Revenue Service.

Last year, the IRS questioned their status as independent insurance companies and the right of their parent corporations to claim certain deductions as business expenses, including the premiums paid to the captives. Instead of closing the Bermuda concerns, many corporations decided to into a profit center bas paid off, transform them into bona fide Bellefonte's income quintupled last

iney now actively cor the business not just for the tax tute, such Wall Street houses as Merrill Lynch and other business advantages, but for the profits groups, such as the National Assoeven though confronted by a bost ciation of Manufacturers and the of obstacles, including an uncertain U.S. regulatory climate, their own lack of underwriting experience, Chamber of Commerce, have also been influential behind the scenes. accidents, medical year, and this has helped in offset crice and executive kidnap- Armco's steel-industry losses, according to insurance analysts at State's Assembly, for Merrill Lynch. malpractice and executive kidnapping and ransom coverage. New York State's Assembly, for instance, has approved the estab-lishment of a reinsurance exchange modeled on Lloyd's of London and the easing of regulations on large and unusual insurance transactions that may attract funds from the

The captives also offer a convenient way for a company to combat high insurance rates, gain cash flow, move money internationally and cover hard-to-place risks. The roster of multinational businesses involved includes sucb companies as Gulf Oil, Ford Motor, U.S. Industries, Exxon and Hanna Min-

offshore concerns.

Faced with liability for oil spills, for example, 34 oil companies formed Oil Insurance Ltd. Seeking a way to provide property-damage insurance for their nuclear power plants, several utilities joined forces in Nuclear Mutual Ltd. Hanna Mining founded its captive, Erieview, to write kidnapping and ransom insurance for key executives.

Quite a few big-league insurers started out as captives and, today, remain highly profitable subsidiar-ies of their parent companies, including: Sears, Roebuck's Allstate, Armco Steel's Bellefonte and Kraftco's Ideal Mutual. In Armco's case, the decision to turn Bellefonte

'Cold War' Heats Up On Fed Interest Plan

WASHINGTON, July 17 (AD-DJ) — The "cold war" between Federal Reserve Board chairman William Miller and Congress heated up as several House Banking Committee members endorsed a plan to strip the Fed of two tools

for shaping monetary policy.

The plan is part of a bill to prop sagging Fed membership by allow ing the central bank to pay interest on reserves it requires its member banks to hold. The scheme would take away the Fed's ability to set both the discount rate, the fee it charges member banks for loans and the amount of reserves the banks are required to hold.

Some committee members endorsed a bill that would permit the bank to pay only \$450 million an-nually in interest and strip it of the two policy tools.

Prices End Mixed On **Big Board**

Late Profit-Taking

Trims Early Advance

NEW YORK, July 17 (Reuters)

New York Stock Exchange prices close mixed today in moderate trading after profit-taking trimmed earlier gains.

Analysts said the prospect of a reduction in the capital gains tax, along with bullish reports on corporate profits, contributed in the

The Dow Jones industrial average fell 0.78 to 839.05 but advances led declines 906-to-549.

Volume rose in 29.18 million

shares from Friday's 28.37 million. The Bonn summit meeting produced little incentive for investors. analysts said.

Prices on the American Stock Exchange, however, finished higher in moderate trading with the mar-ket-value index up 0.93 to 150.85 and the average price per share

gaining eight cents.
International Business Machines which reported higher earnings Fri-

day and traded as high as 2704 today, finished off 14 at 266.

Boeing, which rose sharply Friday after receiving United Air Lines' order for 30 aircraft, fell % 10.58% in active trading. to 58% in active trading. American Airlines was most ac-

rive and gained 12 to 13%. Texaco continued active but slipped % to 26%. In Chicago, soybean and grain fu-tures chalked up moderate to large

losses on the Board of Trade.
A report that China's summer grain harvest was 5 million metric tons more than a year earlier prompted some selling.

At the close, soybeans were 10 to 15 cents lower, with July contracts quoted at \$6.41% a bushel; wheat was 31/2 to 5 cents lower. July \$3.08%; maize was 1½ to 4 cents lower, July \$2.30 and oats were 5½ to 6 cents lower, July \$1.20.

Iraq Plans to Lift Production of Oil

BAGHDAD, July 17 (AP-DJ) lraq has embarked on a large-scale oil production program but is also considering a new policy designed in delay the depletion of the nation's oil reserves, oil minister Tayih Abdul-Karim said in an in-

terview with the government-run Al Thawra newspaper. He said that the government is considering a "new production and marketing policy" designed to overcome the current glut in the world oil market. The new policy, he said, also will be aimed at averting an early depletion of Iraq's reserves, although he did not elabo-

The Tell-Tale Heart The Life and Works of Edgar Allan Poe

. .. <u>--</u>-

By Julian Symons, Joan Kahu/Harper & Row, 250 pp. \$10.95

Reviewed by Christopher Lehmann-Haupt

AN there really be room for yet another study of Edgar Allan Poe? There may be little left for origioal scholarship, admits Julian Symons, himself a critic, poet, and mystery writer. But there remains, in his opinion, the need for a new approach to Poe.

The trouble with existing biographies, argues Symons to the introduction to "The Tell-Tale Heart; The Life and Works of Edgar Allan Poe," is that "in almost all of them the life is fused with the work, so that an account of what he was doing in a given year will be interrupted by long analyses and discus-sions of poems and stories. This procedure, acceptable enough in many literary biographies, can be positively misleading in relation to

So, in this quietly authoritative study, which manages to grant Poe many shortcomings as a writer and yet defend what is important and original obout him. Symons simply tells the facts of the life first, and reserves his comments on the work for a separate section of his book.

This approach unquestionably accomplishes the author's purpose — which is to highlight "the miser-able realities of (Poe's) life, the constant struggle for money, the pride and the drinking, the extent to which criticism and fiction were his occupation although poetry was his ideal, the fact that the constant purpose of his last decade was to edit his own magazine. This was Poe's life, these were his purposes. The stories, whatever later genera-tions have thought about them, were for him at the time primarily a means of making money. Even though he revised them with each new publication, he attached much less importance to them than to his poems, and to the prospects of the

Moreover, the tactic of telling the life plain serves to dramatize how much of a misfit Poe really was - how much his escape into imagination meant to him and how litde it mattered to his contempo-

And not least important. Symons' approach gives us a biography of Poe that coheres. We can now recall Poe as a cadet at West Point, as an editor in Richmond, Va., or as a cottager to Fordham, N.Y., without being distracted by the fantastic products of his imagination. We now have a clearer pic-ture of Poe as he looked from the

The only possible drawback to this technique is that without de-scriptions of his works to interrupt the narrative, the drama of Poe's life seems comparatively slow and After all, despite all the efforts of

scholarship, most of the crucial events of his life — such as his falling out with his guardian, John Allan, his down-and-out years following his dismissal from West Point, and his ultimate deterioration and death in Baltimore - are still mainly shrouded io mystery.

One realizes, after reading "The Tell-Tale Heart." that Poe's biographers have had sound story-lelling reasons for scrambling the facts of his life with his fantasies.

Still, the biographical section of Symons' book is interesting enough if only for its set pieces on 19th-century American literary milieu — especially sectional rivalries that went oo among the Soutbern aristocracy, of which Poe counted himself a member, the commercial centers of New York and Philadelphia, where Poe carned most of what little money came to him in his brief lifetime and the Brahmin stronghold of Boston and New England, to which Poe set himself in unspoken opposition.

Solution to Previous Puzzle

And any tediousness in the first half of "The Tell-Tale Hear" a more than made up for in the second. Here Symoos reviews the intriguing history of Poe's posthamous reputation, which took dec ades to recover from the damage done to it by Poe's malevolent bi ographer and literary executor, Rufus Wilmot Griswold. Here Sy. mons tries to clear up the distorted picture of Poe's writing that has been created by the fame of a small portion of his work — the famous horror tales. Here he lambases the academicians who have discovered or think they have discovered symbolic meanings and subleties in the stories and poems that had previously gone unremarked." Here he gives a sympathetic but skeptical hearing to the Freudian interpretations, most ahly set forth by Marie Bonaparte, in her "The Life and Works of Edgar Allan Poe."

And here he announces and del velops his own interpretation of Poe's art and critism. "It would be an exaggeration to say that his attitude toward the purpose of poetry was European-romantic and his approach to the way of writing it American-materialist, but an exaggeration that held a basic truth He had a concern for the means of doing things — extending from cryptography, criminal puzzles, and mechanical chess-players, the forms of art — which clearly linked with the development of American technology, Part of Poe wished to present the control of the contr serve poetry as a sacred mystery, another part wanted to demon-strate that the whole thing was a technical problem, which could be solved as one solves a cryptogram. These two parts might be termed Visionary Poe and Logical Poe.

"It was Visionary Poe who conceived the poems, but Logical Poe who wrote them. Most of the horrific stories are the work of Visionary Poe, but the detective sto ries and the hoaxes belong to Logi-

"For Visionary Poe, any any worth the name was in search of something different from, and fine than, ordinary reality. Logical Poe however, believed that all literary effects were explicable, and that by the exercise of logic you could take a search of literary and the control of literary and the search of literary and liter work of literature apart like clock, and see how it functioned. "In the struggle between Vision"
y Pou and Lesion!

ary Poe and Logical Poe, and the fusion between them, rests the fas cination of his personality and hi

Greek Stadium Reveals Ancient Locker Room

NEMEA, Greece, July 17 (UPI — U.S. prehaeologists excavating an ancient studium have unearther a long, vaulted tunnel, perhaps used as a locker room by athleig competing in the Nemean Game at the time of Alexander the Great (197). The walls of the 120-foot junie!

a covered entrance to the horse shoe-shaped stadium now being his cleared by archaeologists from the University of California at Berke ley, are scored with graffit Miniscratched by the ancient contes "There are some 30 examples of

graffiti in the area of tunnel exca-vated so far," said Prof. Stepher Miller, who directs the dig. "Theathletes may have waited there before competing and it could have been used as a changing or disrob

ing room."
The ancient athletes scratched their names in the soft limestone blocks in large angular letters — Akrotatos. Moschos, Epikratis, A successful — or optimistic — com. petitor wrote. "Niko --- I win." One holdly-inscribed name

Telestas, may give the find a firm date. "We know from inscriptions at Olympia that Telestas was boxer who won at the Olympics around 340 BC. Prof. Miller said. Similar tunnels have been found at other ancient studium sites like Olympia itself, and nearby Epidaurus, but Prof. Miller points out

the Nemea discovery is larger than any of the others and could well be

BRIDGE

On the diagramed deal the open-ing club lead was ruffed, and South led a trump. East won and had to make a crucial play. He shitted to a diamond to insure a trick in that sun while he still had a trump winner. This would have been the right move to defeat the contract by a trick if South had held a doubleton heart, but as it was it turned a 5001-point penalty into 200.

The diamond eight was covered by the 9-J-A. The heart are was cast, and South played diamonds himself. West could do no better than win and return diamonds. East did not ruff, but it did not save him. He was thrown in with a trump lead and forced to play a heart or give a ruff-and-shift. Thus South avoided the loss of a heart

Tour de France Drug Scandal

Ousted Racer Vague, Defiant

By Samuel Abr

ALPE D'HUFZ, France, July 17 IHT) - Near tears, Michel Pollenier told a confused story here tolay as he tried to explain and proest his disqualification as the overill leader of the Tour de France nevele race.

Hours after his victory yesterday n the first demanding stage hrough the Alps, Pollentier, a 27car-old Betgian racer for the Flan-Iria team, was ruled out of the race or fraud in a dope control contest. This afternoon, at a news confer-nce on the balcony of his hotel

form here as the racers parised for i day. Pollenuer seemed uocertain exactly what his offense had been. As questions were put to him in everal languages, he appeared to se confused, contrite and self-pipy-

Resentful, Defiant

Mostly he seemed to resent the act that he had been caught with a lask and tube attached to his arm to offer somebody else's urine spec-men after the 150-nule race. "They took my specimen," he said. and there was no trouble

with i). The doctor said it was acceptable. I signed and counter-agned for it. For a moment be

thooked defiant.

"The medication I took," he continued, "is to help me breathe. I have used it before, it is oot an amphetamine."

IA Reuters dispatch today said that it had been reported that a secand racer. Antoine Gutuerez, 25, had been accused of trying to fake the test by using a similar appara-tus.] Reminded by a questiooer that he had been disqualified for fraud

Krovopuskov Wins Men's Sabre Crown

HAMBURG, July 17 (AP) Victor Krovopuskov of the Soviet Union won the meo's sabre title at the 34th fencing world championships last night, taking the crown from Pal Gerevich of Hungary.

Second was Mikhail Burzev, also of the Soviet Union, who completed a 1-2 sweep for his country. The hronze medal went to Michele Maffei, Gerevich placed fourth.

nothing wrong with my specimen." Had the apparatus not in fact been found under his jersey?

Yes, yes, I think so, but they had taken it away before the test. The doctor said to me that I had a medication, something half the racers use." He looked off the third something io the crowd gathered on the street and staring upward a)

Never before has a leader of the Tour de France, the major race in bicycling, been disqualified. In this steamy Alpine resort on a day off from the race, that was enough to

Pollentier charged that officials of the tour had been prejudicial toward his team, a not infrequent

"Freddy Maertens was made to take the drug test when he finished third in a sprint." Pollentier said of his roommate, alluding to the rule)bat only the firs) two finishers are usually checked. "Maertens has been among the leaders in eight sprints and eight times he has been

Carew Still Talks Trade

BOSTON, July 17 (AP) - Hit No. 3,000 may be just a matter of time for Rod Carew, but the six-time American League battiog champion says "I haven't got any intentions of sitting down and talking contract with the Twins" Carew said vesterday after Minoesota dropped a double-head-

the season ends." Carew is unhappy with Twins owner Calvin Griffith

It should be a happy time for the slim first baseman, heading for his seventh AL batting title. On Saturday, he recorded hit No. 2,000, off Bill

A) his current 200-hits-a-year pace, Carew, 32, will reach 3,000 in five

"Sure it's frustrating." Carew said, "but I can't let it affect my play. I have to do my job. I can't play for the other eight guys. I have to do Rod

Carner Captures Major League Single Stroke

DUBLIN, Ohio, July 17 (UPI) — JoAnne Carner, one of the top players on the LPGA tour for the last nine years and before that, the premier woman amateur in the rountry defended the \$85,000 .1 PGA Classic title yesterday by one shot over Pat Bradley and Betsy King.

Coming to the final hole with a ooe-sho) lead, Carner hit her drive most in the No. 1 fairway. She within 18 inches of the pin and sank the par putt to win.

Carner's final round 71 on the par-72, 6,265-yard Riviera Country Club course gave her a 7-under-par 54-hole score of 209 compared to 210 for both Bradley and King.

CHICAGO, July 17 (UPI) - more batting milestones while winning run of Boston's 5-3 first-

A's 8, Bine Jays 5

At Oakland, Joe Wallis hit a three-run homer in the eighth inning, giving Oakland an 8-5 victory over Toronto. Wallis connecied off Joe Coleman, who relieved Mike Willis (1-5) with one out and a runner on second base. Coleman got Mike Edwards on a fly to left field, then walked Mike Adams before Wallis sent his fifth bomer of the year over the right-field fence,

Brewers 10, White Sox 1

At Milwaukee, Rookie Paul Molitor bad three hits, drove in three runs, stole two bases and scored twice to lead Milwaukee's 10-1 rout of Chicago. Ben Oglivie added three hits and an RBI and Robin Yount drove in two runs for Milwaukee, who climbed 15 games over 500 for the first time in the franchise's 10-year history with their sixth victory in seven games.

Art Buchwald

A U.S. Dissident

I am writing to you because over the years you have used many of my articles in which I have attacked the president of the United

States, the State Department, the Pentagon, the FBI, the CIA and other agencies of my government. know they

have been appreciated in the Soviet Union even if you haven't paid 🛣 🛵 for them, because they point out the flaws of our system and give aid

and comfort to your people. But I wonder if it has ever occurred to you that I am an American dissident - an American Jew-ish dissident, if you will, which probably in your eyes makes me

the worst kind. While the Soviet press has been nice enough to give me so much space in your newspapers. I wonder whether your officials have ever questioned why I am still walking around a free man.

I'll try to explain it if I may. The United States is made up entirely of dissidents, and since there are so many of us it doesn't seem to make

'James Dean' Fetches 1.000

NEW YORK, July 17 (UPI) - A James Dean signature from an autograph book sold at auction last week for \$1,000 - more than twice the price fetched for a signature by Ahraham I incoln.

Charles Hamilton of Charles Hamilton Galleries, which auctioned the signature at the Waldorf-Astoria Hotel here, said it was the first he had ever seen by Dean, star of such films as "Rebel Without a Cause" and "East of Eden." The actor died in an auto wreck in

MESSAGES JULY 18

CASSSRM HRG51KK JEG55RF PAMS5RF TNS51ML WQAS2CF

MESSAGES JULY 17

DFL17DA GEL2199 MBR42AZ RECSICH

WASHINGTON —To the Edi-tor of Izvestia, Moscow, U.S.S.R.: any difference if there is one more or one less speaking out against what we think our government is doing wrong.

This does not mean that our officials don't get angry. Those in pow-er in the White House are always screaming that they're getting a raw

Our selected officials in Congress aren't too happy with dissidents either, and every government agency constantly claims that we don't get the facts right - which may or may not be true. But despite their distress, the criticism goes on, and the walls of our system still stand.

We go to great extremes to pro-tect our dissidents in this country. We allow the Ku Klux Klan to burn crosses, and the Nazis to hold rallies in our parks. Lately we've even indicted FBI agents for al-legedly using unlawful means to find out what our dissidents were

Please don't get the idea that one dissident agrees with another — far from it. It's just that once you start going after dissidents that you disagree with, we believe the next step is that someone will start going after you. This country doesn't have enough courtrooms to handle all the people who are constantly writing and speaking out as to what our government is doing wrong.

You probably consider it a weakness, but we don't have any laws on the books (so far) that make it a crime to defame and slander the state. Both our major political parties are used to it and, if you want the truth, get a great deal of plea-sure out of defaming and slander-ing not only the other party but also itself.

I don't wish to criticize your system but I would suggest that if you permitted your dissidents to speak freely as much as we permit ours

to, you wouldn't get so upset about them and have to put them on trial. Free people can be a pain in the neck to any government but once you have enough of them speaking out, it's amazing bow easy it is to

get used to them. As a first step, why not print this piece, If anyone in the Kremlin complains, just tell them it was written by a bona fide American dissident who, despite what he says about his government, can't get arrested to save his life.

Irving Stone and the Great Human Story

By Ursula Vils

DEVERLY HILLS. Cnlif. —
After three years and rejection by 17 publishers. Irving
Stone's first book, "Lust for
Life," came out in 1934. As of two years ago - more recent figures are not available - the book bad sold 24 million copies worldwide in 70 editions in translations from Assamese to

That is not quite how living Stone had envisaged his career. Stone, who turned 75 Friday. sat in the library of his hilltop home here on a recent warm afternixin and talked of his work. his life and his philosophy. With him, sometimes editing his conversation as she always does his manuscript was ltis wife of 44

They began, quite naturally, with "Lust for Life," the story of Vincent Van Gogh and the first of the biographical novels that are Stone's genre. The book came out of what Stone describes as "an emotional experience" upon viewing an exhibition of 60 Van Gogh paintings in Paris in the mid-1920s. Publisbers were considerably less emotional about his manuscript.

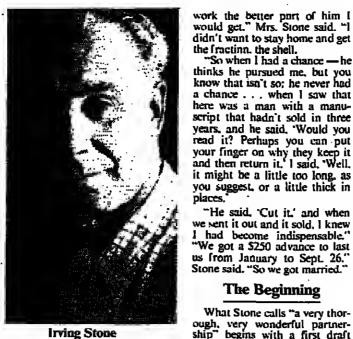

"Alfred Knopf had it first; they never opened it - the package with the manuscript got home before I did." Stone said. "Doubleday had it second. Everybody — editors, art experts approved it

"Then it went into a sales meeting and they said. No way. There is no way to sell a book about an unknown Dutch paint-er — and in 1931 Van Gogh was unknown - to the American public in the midst of a depres-

17 Titles in Print

Doubleday. Stone's publisher for the last 40 years, subsequent-ly bought "Lust for Life" from the original publishing house — and keeps each of Stone's 17 hardback titles in print.

The author smiled faintly. then nodded behind him toward the library's "Stone Wall," a 7-foot-tall stack of shelves containing copies of his books in varying editions and languages, such familiar titles as Sailor on familiar titles as "Sailor on Horseback" (about Jack London), "Clarence Darrow for

Irving Stone . . . in 1958

the Defense." "Immortal Wife."
"The President's Lady." "Love is Eternal." "Men to Match My Mountains." "The Agony and the Ecstasy." "Passions of the Mind" and "The Greek Tressure"

"Did I expect this? No." he said. "I hoped to write a book that would sell 5.000 copies. which would give me enough money to live very frugally and write another book that would sell 10.000 copies, which would give me enough to write a third book that would sell 20,000 copies, and so on.

"Instead, I landed on top of my head. I wound up on the ceiling and I've spent the rest of my life clinging to the ceiling with my fingernails."

Hanging in there with him all those 44 productive years has been Jean Stone, who was "just out of high school" when she met her future husband and her first editing job; "Lust for Life." She was working for a construction firm and planning to study journalism at the Universi-

blank page. I can make anything better, but I don't think I can pull anything out of the air." They currently are working on a book about the coterie of English scientists in the 1830s, '40s ty of Wisconsin. Her observation of the construction company's and '50s whose findings revoluengineers led her to a conclusioo tionized thinking on the creation of the world. Two more books about men. "I decided that the closer I could get to a man's

work the better part of him I would get." Mrs. Stone said. "I didn't want to stay home and get are in the plnnning stage, al-though Stone said he might sub-stitute his nutobiography "if Jean is willing to participate." Stone was born in San Fran-

cisco. He went to the University of California at Berkeley and earned a master's degree at the University of Southern Califor-nia. He taught at both universities, then went to Paris to write. He supported himself by writing mystery stories for pulp magazines. He recalls those days with amusement.

Prize for a Play

"When I was teaching [economics] at Berkeley, I won \$25 as prize for a play I had written," he said, "I thought I was a dramatist. In a year and a half in Paris, I wrote 17 fulllength plays and 31 one-act plays. Nobody told me you can't do that."

The experience, however, taught him to write the dramanc scenes that fill his biographical novels, which he differentiates from historical fiction as being 98 percent truth and 2 percent fiction rather than 2 percent truth and 98 percent fiction."

In professional life, I have found the greatest pleasure is a great human story. I read all I can and write my own to pay my debt and to enrich lile.

"I believe that work is good unto itself, that it is one of the two highest forms of human expression. Love and work or work and tove: It seems to me they grow out of each other." So, at 75. Irving Stone lives in

an airy contemporary home with the wife who has given him a son and a daughter (both grown) as well as 44 years of literary col-laboration. They live amid books, paintings and pre-Columbian art.

He is not reluctant to admit that he hates neckties, nor does he conceal his pleasure at the testimonial banquet held in his honor last week at the California Museum of Science and Industry, where an exhibition covering his life and work will continue through December.

He also finds what he terms ego value. I like to see my stories in print. Basically, that is what my life is about."
